Vol. 21, No. 28
July 19, 2002

HOMELAND SECURITY TRAINING GRANT

The ARRL will receive a \$181,900 homeland security grant from the US government to train Amateur Radio operators in emergency communication. The League was among several dozen nonprofit organizations designated to receive some \$10.3 million in federal money to boost homeland defense volunteer programs. The grant, from the Corporation for National and Community Service special volunteer program, will provide free ARRL Amateur Radio Emergency Communications Course training to 5200 volunteers nationwide, starting in 2003.

"ARRL is the national association for Amateur Radio and is the national leader in emergency communications by volunteers who operate their own equipment on their time at no cost to any government, organization, or corporation," said the July 19 announcement from Homeland Security Director Tom Ridge. The ARRL plans to revise and update the emergency communications curriculum to incorporate additional elements of emergency preparedness and homeland security.

ARRL President Jim Haynie, W5JBP, said he was extremely pleased by the news. "This adds legitimacy to the public service work Amateur Radio has been doing for years," he said.

ARRL Chief Development Officer Mary Hobart, K1MMH, applied for the funding in May, inviting the Corporation for National and Community Service to become "a partner with the nation's oldest volunteer radio communications organization."

"I think this is an extraordinarily exciting day for Amateur Radio that the role of Amateur Radio in homeland security is recognized at the highest levels of government," Hobart said upon learning of the grant. The League's grant application characterized Amateur Radio as "the bedrock of communications when other outlets fail."

testing expeditions that I had gone on. I recall that PAARA was a very vibrant and dynamic club, and I enjoyed getting together with the members. The get-togethers after the meetings at the pizza parlor on the El Camino were always a lot of fun as well.

In 1990 I left the Bay Area and moved to British Columbia. Nonetheless, the PAARAgaphs issues have continued to be sent to my mailing address in California at my parents' house in Hayward. Every three to six months when I come down to visit, the newsletters are there waiting for me to read! And I DO read them.

Many of the folks I remember have left the Club or have become Silent Keys, and the postage and printing costs certainly have not declined over the years. Say hello to Gerry WA6L . . . er, N6NV for me.

73, Gary Caldwell VA7RR/WA6VEF

Hi Wally,

I'm on the subscriber's list for PAARAgaphs--in fact, as incredible as it may seem, I have been receiving a complimentary copy since I edited the Contest JUG for the Northern California Contest Club back in 1978!

I've really enjoyed reading PAARAgaphs over the years. As an avid tester, I operated a bunch of times for PAARA in Field Day back in the early '80s when the Club was using the call of Fred Canham, K6YT. We used to go to "war" against K6YA for FD supremacy. I also made more than a few presentations to PAARA about radio con-

September 11 terrorist attacks, Hobart said the federal grant will help continue our work in providing public service and to protect lives, homes, businesses and our frequencies, as we have for decades."

The League had sought a three-year grant of \$541,750. The \$181,900 grant covers the first year's direct program costs. The proposed budget includes the cost of a project coordinator who would be responsible for overall fiscal management of the grant.

ARRL Chief Executive Officer David Sumner, K1ZZ, said he was pleased that the League would be able to extend its Amateur Radio Emergency Communications program to thousands of amateurs who might otherwise not be able to afford the program. "We hope all who are interested will get on board," he said.

The grant announcement said that "expanding the opportunities for Americans to participate in meaningful volunteer service" is at the heart of President George Bush's USA Freedom Corps, of which the Corporation for National and Community Service is a part.

"We are deeply grateful to Tom Ridge and to the Corporation for National and Community Service for providing Amateur Radio with a unique opportunity to serve our country," Hobart said.

In June, the ARRL and United Technologies Corporation announced a partnership to provide free ARRL Amateur Radio Emergency Communications Course training for up to 250 Connecticut amateurs.

From:

Jim Utterback, Director Emergency Services,
American Red Cross Sierra Nevada Chapter,
Reno, NV

To:

Matt Parker, N7TOD, Northern Nevada District EC:

I would like to take this opportunity to thank you and your team for the excellent support to the Red Cross. Most recently the Canon Fire. As you might know, cell phone service is nonexistent in the Coleville area of CA. We could not get any satellite phones and there was only one landline available to support four different agencies. As always you answered the call and established reliable communications between the chapter HQ and the Coleville operating location. We very much appreciate the work of your amateur radio operators in disasters and look forward to many years of working together.

Again **THANK YOU for a JOB WELL DONE.**

Jim Utterback,
